

ANDAYA, DORIA, PINEDA, SALTING

Systems Analysis & Detailed Design for IT-MI

Mr. Jose Eugenio L. Quesada

COMMENTS FROM PANEL

Comments for Openproject

1. The budget on Openproject must contain the estimated budget from the Project Charter.
2. Hourly labor for each member must be different because members have different roles.

Fully dressed / UCD

1. Administrator actor must also point to the User actor.
2. Clarify admin process.

Comments for Data flow Diagram

1. UCD and Level 1 DFD should have the same number of processes/use cases.
2. There must be returning values from the data store on all DFD Levels.
3. Connections or data flows must be nouns.
4. The numbering of processes on DFD Lvl 2 must follow the numbering on DFD Lvl 1.

TEST CASES

TEST CASES FOR ACCOUNT REGISTRATION

Project Name	furlink
Description	Registration of pet owner accounts.
Test Objective	To verify that account registration work as expected.
Created By	Lalaine Andaya
Reviewed By	Michelle Reina Pineda
Test Case Version	v1.0
Test Execution Date	8-Oct-25

Test Case ID	Use Case ID	Test Case Name	Test Description	Test Steps	Test Data	Expected Results	Actual Results	Execution Status	Comments
REG-TC01	UC-01	Successful account registration with valid credentials	Verify that the system is able to accept First Name, Last Name, Email, Mobile Number, and Date of Birth	1.Open the platform 2.Fill out registration forms by entering a valid name, email, mobile number, and date of birth 3.Click submit	1.Name: John Uela Cruz 2.Email: johndacruz@gmail.com 3.Mobile number: 09124355326 or +639925361726 4.DOB: 02/05/2000	System accepts the inputs and proceeds to the next step.	Same as expected	Passed	
REG-TC02	UC-01	Matching Password and Confirm Password inputs	Ensure that the system will not let the user to register an account if the passwords are not matching.	1.Fill out the required fields on the registration form 2.Enter a password 3.Enter a different password from 3.Click submit	1.Password: P@ssword1 2.Confirm password: P@ssw0rd	User fails to register account and error is displayed: "Passwords do not match."	Same as expected	Passed	
REG-TC03	UC-01	Password format validation	Verify that the password field accepts a password with more than 8-12 characters containing uppercase letters, lowercase letters, numbers, and special characters.	1.Fill out the required fields on the registration form 2.Enter a valid password 3.Click Submit	P@ssw0rd	System accepts the inputs and proceeds to the next step.	Same as expected	Passed	
REG-TC04	UC-01	Invalid password format	Ensure that the system will not proceed to registering the account if the password inputted does not meet the password format criteria	1.Fill out the required fields on the registration form 2.Enter a password 3.Enter a different password from 3.Click submit	1.more than 8 characters. pass 2.No lowercase: PASSWORD 3.No special character: Password 4.No uppercase: password 5.No number: P@ssword	User fails to register account and error is displayed: "Password must contain an uppercase, lowercase, special character, and number."	Same as expected	Passed	
REG-TC05	UC-01	Invalid email format	Ensure that the system rejects when the user inputs invalid email format	1. Enter an invalid email format. 2. Fill other fields correctly. 3. Click Submit.	example@@google, example.com, example@google, examplegoogle.com	User fails to register account and error is displayed: "Please enter a valid email address."	Same as expected	Passed	
REG-TC06	UC-01	Invalid phone number format	Ensure that the system rejects when the user inputs invalid mobile number format	1. Enter an invalid mobile number format. 2. Fill other fields correctly. 3. Click Submit.	912343534	User fails to register account and error is displayed: "Please enter a valid mobile number."	Same as expected	Passed	
REG-TC07	UC-01	Agree to terms and conditions	Verify that the user can view and agree to the website's policy and terms and conditions by checking the check box.	1. Fill all required fields correctly. 2. Check the Agree to Policy box. 3. Click Register.	N/A	System accepts the inputs and proceeds to register the user account.	Same as expected	Passed	

TEST CASES FOR ACCOUNT LOGIN

SPRINT 1 DSU OUTPUT

LA *RE: Sprint 1 Week 1 Day 01 Daily Scrum Meeting Individual Updated Report - Added by Lalainne Andaya 20 days ago*

1. What did I do?
 - I updated our budgets on OpenProject, backlogs are updated, and the level 1 DFD has been updated
2. What will I do today?
 - I will start working on my assigned Activity Diagrams with Swim lanes
3. Anything blocking my progress?
 - Unfamiliarity with activity diagrams.

AD *RE: Sprint 1 Week 1 Day 01 Daily Scrum Meeting Individual Updated Report - Added by Atasha Frances Gayle Doria 19 days ago*

1. What did I do?
 - I finished revising the data flow diagram level 2 for booking.
2. What will I do today?
 - I will start doing the swim lane and continue with the development.
3. Anything blocking my progress?
 - I can't figure out how will be the development flow.

FS *RE: Sprint 1 Week 1 Day 01 Daily Scrum Meeting Individual Updated Report - Added by Feliz Angelica Salting 16 days ago*

1. What did I do?
 - I am finished with editing the level 2 diagram for dashboard viewing and have consulted with the group about the login options of the admin
2. What will I do today?
 - I will edit the level 2 data flow diagram for the admin
3. Anything blocking my progress?
 - I don't know what the backend system for the admin looks like and how it will translate to the data flow diagram level 2

MP *RE: Sprint 1 Week 1 Day 01 Daily Scrum Meeting Individual Updated Report - Added by Michelle Pineda 16 days ago*

1. What did I do?
 - I finished editing the data flow diagram of AI Pet Haircut Generation and CRUD for Pet Service Provider
2. What will I do today?
 - I hope to start my assigned swimlane diagrams
3. Anything blocking my progress?
 - I dont have a full idea of how to make an acitivity diagram with swimlane.

Replies (4)

MP *RE: Sprint 1 Week 2 Day 01 Daily Scrum Meeting Individual Updated Report - Added by Michelle Pineda 12 days ago*

1. What did I do?
 - Finished the ERD entities and connections.
2. What will I do today?
 - Continue my swimlane progress
3. Anything blocking my progress?
 - Many Backlogs

LA *RE: Sprint 1 Week 2 Day 01 Daily Scrum Meeting Individual Updated Report - Added by Lalainne Andaya 12 days ago*

1. What did I do?
 - Created work packages for the new admin login use case
 - Created an activity diagram with swim lanes for the admin login process
2. What will I do today?
 - Renumber data store numbers on level 2 DFD
 - Continue with test cases creation using the test case format
3. Anything blocking my progress?
 - Backlogs for this project and other backlog committments for other subjects are overwhelming and time is a constraint

AD *RE: Sprint 1 Week 2 Day 01 Daily Scrum Meeting Individual Updated Report - Added by Atasha Frances Gayle Doria 11 days ago*

1. What did I do?
 - I finished creating the login and sign-up page.
2. What will I do today?
 - I will continue polishing the user authentication part.
3. Anything blocking my progress?
 - I can't figure out how to directly store user's information upon sign-up without having to confirming their emails and fetch their data for the dashboard.

FS *RE: Sprint 1 Week 2 Day 01 Daily Scrum Meeting Individual Updated Report - Added by Feliz Angelica Salting 7 days ago*

1. What did I do?
 - I started a draft for the swimlane diagram of viewing dashboard and admin managing accounts
2. What will I do today?
 - Finishing the swimlanes
3. Anything blocking my progress?
 - Being unfamiliar with creating swimlanes

INDIVIDUAL CONTRIBUTION

Lalainne Andaya

1

Focused on the creation of context and level 1 data flow diagram

2

Created data flow diagram level 2 for manage account

3

Created activity diagrams with swim lanes

4

Created test cases for each fully dressed use case

INDIVIDUAL CONTRIBUTION

Atasha Frances
Gayle Doria

1

Focused on the development of the first MVP release

2

Created data flow diagram level 2 for manage booking

3

Created activity diagrams with swim lanes

4

Created test cases for each fully dressed use case

INDIVIDUAL CONTRIBUTION

Michelle Reina
Pineda

1

Focused on the creation of the entity relationship diagram

2

Created data flow diagram level 2 for manage service listing

3

Created activity diagrams with swim lanes

4

Created test cases for each fully dressed use case

INDIVIDUAL CONTRIBUTION

Feliz Angelica
Salting

1

Focused on the creation of data flow diagram level 2 for moderate user activity

2

Created data flow diagram level 2 for view dashboard

3

Created activity diagrams with swim lanes

4

Created test cases for each fully dressed use case
